

## ROCKLAND COMMUNITY POWER ENERGY PROGRAM

### Energy at Competitive, Fixed Rates

### Information Sessions in February and March

Six Rockland County municipalities are participating in the second round of the Rockland Community Power program: Orangetown, Clarkstown, and the Villages of Grand View-On-Hudson, Haverstraw, Nyack, and Upper Nyack.

The Rockland Community Power program provides eligible Orangetown residents and small businesses with the option of either standard or renewable electricity supply at competitive, fixed rates, with no individual contracts for consumers and no exit fees. The program also gives each of us the option to reduce our carbon footprint with renewable energy, while capping electricity supply rates.

Now this program will relaunch with new rates in April 2023. Eligible residents and small businesses can expect to receive information in the mail this week explaining their options, and how to participate or how to opt out.
